ABOUT ME

I'm a Software Engineering student with a passion for learning new technologies. I also work as a Graphic Designer, combining creativity with technical skills to grow in both fields.

PROJECTS

[2025]

RootAlert（Smart Watering Reminder System）

Developed a Smart Watering Reminder System where users can set alarms for their plants and receive sound-based alerts. The system also includes a chat feature for users to connect with plant care experts. Additionally, there's an information section on the website where users can read about different plants and plant care tips for maintaining healthy growth. A proper login and
